Bryan's Election Would Strike Down the Policy of Protection.

Seven years ago the country was in A Sure Cure for CHILLS and a condition of relative prosperity. In 1892 every industry was active and all the commercial enterprises of the nation were fully occupied. There was not at that time a single indus try idle from one end of the country to the other. There was a demand for labor In all the industrial hisa tory of the nation there is no period of such wonderful success as that which culminated in the year 1892 What was the secret of that triumph? It was mainly due to the policy of nize all that is patroitic in our public the Republican party in the Protecion of American industry and American labor. Whatever the opponents of that policy may say, the fact renains indisputable that the results of that policy are such as to vindicate it record! The last Democratic Tariff -the Wilson bill, in the preparation and advocacy of which Mr. W. J. Bryan had a large share-was intend ed to strike down the policy of Pro-

In response to an invitation to be present at a political meeting in Louis ville, after expressing regret that he was forced to decline, John G. Carlisle

"It is scarcely necessary to say that I am in thorough sympathy with every effort in Kentucky or elsewhere to secure the freedom of elections, and an honest declaration of the will of the people, as expressed at the polls. Fraudulent voting is no more reprehersible than fraudulent counting of the votes after they are cast. In fact, the latter is the greater evil, because the outrage upon the right of suffrage is committed by sworn officials of the law, upon whose integrity and good faith the people are compelled to rely for the maintenance of the right of majority to control the affairs of the state. This is the basic principle of our Republican form of government, and any system of fraud or corruption which defeats its practical operation will, necessarily, sooner or later, resuit in the destruction of all the politi cal rights of the people."

All except bad ones!

There are hundreds of cough medicines which relieve coughs, all coughs, except bad ones! The medicine which has been curing the worst of bad coughs for 60 years is Ayer's Cherry Pectoral.

Here is evidence :

My wife was troubled with a deep-seated cough on her lungs for three years. One day I thought of how Ayer's Cherry Pectoral saved the life of my sister after the doctors had all given her up to die. So I purchased two bottles, and it cured my wife completely. It took only one bottle to cure my sister. So you see that three bottles (one dollar each) saved two lives. We all send you our heartfelt thanks for what you have done for us."-J. H. BURGE, Macon, Col.,

Now, for the first time you can get a trial bottle of Cherry Pectoral for 25 cents. Ask your druggist.
